Kwame Dohgbefu

+233204362233 | Takoradi, Ghana | kwamedohgbefu@outlook.com | https://kwame09.github.io/

Objective:

Frontend developer with experience in React, Next and some midrange experience in Node.js, Django, and database systems for backend, seeking to deepen experience in application development and AWS cloud technologies.

Skills

- **Languages:** HTML5, CSS3, SCSS, JavaScript, TypeScript, Python, SQL (Oracle SQL, MSSQL, MySQL)
- **Frontend:** React, Next.js, Tailwind CSS, Bootstrap, Ant Design, Shadcn
- **Backend:** Node.js, Express.js, Django
- **Tools:** Git, GitHub, Microsoft Office, Jira, Linux, Bash scripting, API integration
- **Soft Skills:** Communication, Client Relationship Management, Problem-Solving, Organization, Multitasking, Self-Motivation, Teamwork

---

Professional Experience

Hypermedia
IT Instructor | November 2023 – Present

- Developed and delivered web development curriculum covering HTML, CSS and JavaScript.
- Introduced students to backend fundamentals, including API design with Node.js and database interactions with SQL.
- Guided students through hands-on projects, fostering practical skills in responsive web design.
- I was able to handle two badges of students to complete responsive web development within the year 2024.

Tech Africa *(Contract)*
Full Stark | June 2023 – September 2023

- Built reusable UI components and optimized code for the company's ERP system.
- Collaborated with backend developers to design RESTful APIs for ERP system integration using Node.js and Express.js.
- Optimized SQL queries (MySQL) to reduce data retrieval time by 30%, improving ERP system performance.
- Built reusable UI components for an e-commerce platform.
- Developed backend logic for an e-commerce platform using Node.js and TypeScript, enabling payment processing and inventory management.

Educational Background

IPMC Takoradi | February 2022 – February 2023   Takoradi, Ghana
Diploma in Database Technology
Relevant coursework: SQL (MSSQL, Oracle SQL), Python programming, Linux system administration
Project: Built a Billing System with Python and MSSQL: https://github.com/Kwame09/Billing-sys

Projects (Freelance Projects):

Opportunity & Mentoring System (Junity) React, Node.js

Auto-fill Extention system (**SHOONIYH**): React, Bootstrap, Django

Organizational Management System (SEMA): React, Tailwind, SCSS and Django,
